

# ALEJANDRO PARADA

## JR SOFTWARE DEVELOPER

Sr Software Developer in Test (automation)  
Spanish (native) English, Experience with offshore teams

---

## OBJECTIVE

To obtain a challenging software developer position should highlight problem-solving skills, programming expertise, and passion for creating innovative solutions.

---

## EXPERIENCE

### JR SOFTWARE DEVELOPER

October 2024 - May 2025

Created first website as freelancer with some pages using html, JavaScript and CSS. Created a few websites with navigation for small clients and friends.

### SR QA ENGINEER

Dec 2023 - September 2024

Contract to test, create automation for an application migration, and maintain other applications such as web applications. Use of Cypress, web services, and Java to test a new application.

### SR QA SOFTWARE AUTOMATION

April 2021 - Aug 2023

Creation of a Selenium framework for web applications and manual QA for website maintenance. Study and development of Cypress scripts for web applications. Attend meetings and perform necessary QA processes with the team.

### QA TESTER

July 2020 - April 2021

Test hardware on servers built using shell scripts and detect faults for repair if they are on the production line. Responsible for mounting the servers in racks in the next area for integrity testing.

### QUALITY ASSURANCE SPECIALIST

July 2020 – October 2020

Small contract: Application migration and database verification. Manual testing and some scripts.
